Subscribers

Thank you for subscribing

Subscribers, please feel free to make copies for your clients.

Feel free to put your business card over the business card at the bottom right hand corner of the first page and then copy.

Please let me know how I can make this newsletter better for you, your clients and your community.

Distribution Ideas

Making lots of copies

I recommend printing the first 4 pages on a double size sheet of paper so that all four pages are on one sheet of paper folded in half, so page one is the front and pages 2 and 3 are inside with four as the back cover.

The fifth page - the references can be printed separately on one side of a piece of paper and you can use the other side for a one page flyer of your information or upcoming events, etc.

Making less copies

The references page is at www.TheBurnhamReview.com. Clients can go there for more information.

You could also just print the first page and put your flyer information on the back for up coming events at your clinic and then refer clients interested in the other pages to www.TheBurnhamReview.com.

Making no copies

You could also have a sample copy in your office in a binder, again referring clients interested in more information to the website.

**Please encourage anyone requesting an electronic copy (ie) by email to contact
Kimberly Burnham, PhD at info@TheBurnhamReview.com**
